IN PILES—that common and annoying disease—it never fails to effect a cure, no matter in what form or of how I had to enect a cure, no matter in what form or of how long standing, if faithfully administered. The proprietors have in their possession a large number of Certificates, from some of the most respectable citizens in the State of Virginia, who have been relieved by its use, a number of which accompany each Box. We give the following : BOTETOURT COUNTY, Va., Nov. 8th, 1851

BOTETOURT COUNTY, Oct. 9th, 1853.

MR HUTCHESON-Dear Sir :- I feel it to be my duty to say a word upon the merits of your Celebrated Ointment. I am constrained, from experience, to pronounce it the best Healing and Pain Killing Agent i have even seen employed. A few months since, my little son got one of his legs broken, after which he was carried a considerable distance, which caused ex-treme soreness of the broken limb; I applied your Ointment, and in less than three hours all soreness had disappeared. A short time since, a member of my family was taken with malignant sore throat, and I unhesitatingly say that, within one hour after the first application, he was almost entirely relieved. I write for the benefit of the suffering.

tion to the seizure of the Black Warrior at Havana on the 28th ultimo. There have been, in the course of a few years past, many other instances of aggression upon our commerce, violations of the rights of American citizens, and insults to the national flag, by the Spanish authorities in Cuba; and all attempts to obtain redress have led to protracted, and as yet fruitless, negotiations. The documents in these cases are voluminous, and, when prepared, will be sent to Congress. Those now transmitted relate exclusively to the seizure seizure of the Black Warrior, and 1 resent so clear a case of wrong that it would be reasonable to expect full indemnity therefor as soon as this unjustifiable and offensive conduct shall be made known to her Catholic Majesty's government; but similar expectations in other cases have not been realized. The offending party is at our doors, with large powers for aggression, but none, it is alleged, for repratation. The source of redress is in another hemisphere, and the answers to our just complaints made to the home government are but the repetition of excuses, rendered by inferior officials to their superiors, in reply to representations of misconduct .-The peculiar situation of the parties has, undoubtedly, much aggravated the annoyances and injuries which our citizens have suffered from the Cuban authorities, and Spain does not seem to appreciate to its full extent her responsibility for the conduct of these authorities. In giving very extraordinary powers to them, she owes it to justice and to her friendly relations with this government to guard with great

I have already taken measures to present to the government of Spain the wanton injury of the Cuban authorities in the detention and seizure of the Black Warrior, and to demand immediate indemnity for the injury which has thereby resulted to our citizens. In view of the position of the island of Cuba, its proximity to our coast, the relations which it must ever bear to our commercial and other interests, it is vain to expect that a series of unfriendly acts, infringing our commercial rights, and the adoption of a policy threatening the honor and security of these

In case the measures taken for amicable adjustment of our difficulties with Spain should unfortunately fail, I shall not hesitate to use the authority and means which Congress may grant to insure the observance of our just rights, to obtain redress for injuries received, and to vindicate the honor of our flag. In anticipation of that contingency, which I the propriety of adopting such provisional measures as the exigency may seem to demand.

On the evening of the 28th I received the captaingeneral's reply to my letter, which was far from satisfactory. A copy and translation of the same were transmitted to you with my communication, No. 34, sent per steamer " Corwin."

On the 1st, at about 12 o'clock, the collector wrote a communication to Mr. Tyng. I send you a copy of this communication, as well as that of a second letter from the same officer, also that of Mr. Tyng's reply. Enclosed you will likewise find a copy of a letter I received last evening from the "intendente" of the treasury, and of my reply thereto. I also accompany a copy of the printed regulations which are handed to all captains of vessels on the first visit from the custom-house officers.

I have omitted to say that I am informed that the regulations concerning steamers require that they shall manifest the quantity of coal they have on board, but that in no instance has this law been complied with. This neglect or unobservance of the laws by the authorities themselves has rendered them obsolete, and therefore inapplicable. I am also assured that a law prescribes that, when it is clearly shown that there has been no intention of infringing the law, or defrauding her Majesty's revenues, parties shall not be deemed culpable. In my opinion, it is simply ridiculous to suppose for an instant that the captain of the Black Warrior had any intention to do otherwise than conform to all established regu-

Although I had written to the "intendente" last evening declining the request that I should appoint a person to take an account of the cargo proposed to be landed to-day, being led to that course by the idea that the intendente's object was to present at least the semblance of a sanction on the part of this consulate to their proceedings, I, nevertheless, called upon him this morning, remarking, by way of introduction, that I presented myself not only in the character of consul or commercial agent, but as a friend; that I was expecting the steamer Philadelphia to-day, and I was anxious to communicate to my government the true relation of the facts on both sides, that my government might be prepared to meet the many demands upon it for indemnity by innocent parties interested in the cargo; that I did not come to solicit that his government should alter its position, however desirous I might be to aid in preserving good relations between the two governments, but to obtain facts. This led to a discussion. I remrakearnestly hope may not arise, I suggest to Congress ed that I could not see how two wrongs made a right; that it might have been wrong to have entered and cleared the ship in ballast; but that the captain, through his consignee, had attempted to correct the error, within the legal time, and he had not been per-Letter from Consul Robertson to Secretary Marcy. the authorities well-known, practice of entering in mitted; that this added to the long-continued, and ballast when she had cargo in transitu. From the New York Times. How the Russlans Wage War-The Sack of

On the first of August, 1849, about 9 o'clock in the morning, ninety Russian soldiers, commanded by ten officers, arrived at Losonez. They halted in the public square, and, while the officers were breakfasting in the nearest tavern, the soldiers scattered around among the baker shops of the town. They had been scarcely fifteen minutes engaged in regaling themselves there, when the place was suddenly sur ounded by a column of 150 Hungarian guerillas, who it originated. rushed upon their hated foes with unexpected impe-Three Russian officers were killed; the rest, with all the common soldiers, were captured, except-

ng only a few who managed to escape. After this feat. the guerrillas withdrew. When they had at length departed, the bodies of the Russians were buried in a common ditch. It was not long, however, before the rumor reached Losonez that General Grabbe had sworn to take vengeance on the town for the surprise of his soldiers. At length, on Aug. 7, the affrighted inhabitants learned that the enraged Russians were within an hour's march of them. All who had vehicles at their disposal at once hurried away, but the greatest portion were compelled to remain. The cholera was committing its ravages in the town, and nearly every family had dead members to bury or sick to tend.

The town was speedily surrounded by the Russian advanced guard, composed of Cossacks, whose first measure was to cut off all retreat for those who might still endeavor to escape "Hungarian dogs!" they cried to the unfor unate fugitives, as they drove them

back with clubs. Ere long, a Russian major presented himself at the Town Hall, and the municipality having secreted themselves, or taken to flight, named a magistrate and mayor among the town's people present, impo-sing upon the place a ransom of 27,000 rations of 146 opposition. The towns to be heard from elected bread, 100 oxen, 100 quintals of lard, 200 bushels of vegetables, 100 cords of wood, 100 casks of wine, 25 casks of alcohol, 100 casks of brandy, 50,000 rabave a democratic majority. This exorbitant ransom was laid upon the town with an accompanying threat that if it were not paid by 8 o'clock the next morning, the place should on towns in New Hampshire, comprising nearly the be destroyed. To satisfy such demands was imposle State, which show the election of 154 whigs sible, for a few days previously the army of Gorgey, and the corps of General Sass, had consumed nearly all the provision that could be found in the neigh-Yet every exertion was made, and then the deputations of burghers presented themselves at the head quarters of Gen. Grabbe, to reach which it was necessary to pass through the Russian army. At first free passage was refused them; they were insulted, beaten and threatened with death; but, after having been subjected to much ill-treatment, succeeded in making their way to Gen. Nadde, who received them brutally, although, at the same time, romising to spare the innocent. But, by afternoon, the pillage began in some of the streets The officers, to console the inhabitants, told them there should be no burning. But the soldiers were more frank in announcing the truth. At last night came—and what a night! About 10 o'clock, a troop of Cos-Rock and others, parted their cables, but were sacks dashed into the town and drave the inhabiafterwards secured. The barque Yuba went ashore tants towards the cemetery, where the Russians on Genges Island, but got off and went to sea. The slain by the guerrillas had been interred. There vale was very severe to the east, and was accompa- they were ordered to open the pit in which the dead soldiers had been deposited, and as they were about to do so, with mattock and spade, there arose a yell from their foes: "With your nails, dogs that ye are!" and they were forced to obey.' The general pillage commenced after midnight. The signal was given by a blast of trumpets. The regiments marched in, one after another. This thronging host, constantly renewed, did not content itself with pillaging the houses, but they even tore from the inhabitants their clothing, not excepting their linen and shoes .-Those who did not yield to this outrage with a good grace were regaled with a shower of blows. All were soon reduced to a condition bordering on complete nudity. Of course, the principal demand was lacerated, with cuts of the kantschuk. The last regiments, finding nothing more to take, avenged themselves for the disappointment by unheard of cruel-

ties. Officers, as well as common soldiers shared in the booty. When all the stolen articles had been conveyed to the Russian camp, some of the battaions re-entered the town with pitchforks and sticks, and broke to pieces everything they had not been able to carry away. They did not leave a single article of furniture entire. Descending into the cellars, they bilged all the wine they could not drink. The excess committed by these drunken barbarians surpassed all that any one could imagine or dare to describe. I will say nothing of the outrages committed upon women and girls. Although an eyewitness, I can scarcely believe them. This much, however, I will say, that neither the churches nor the resting places of the dead were respected. This sack, of which, the like has never, perhaps, been elsewhere committed, lasted thirty six hours. During that where they have on hand a large assortment of goods of every whole time, the town was surrounded so that no one variety and description, which they offer at the lowest market could pass out of it. The destruction was complete, the ruin was total-but even all that was not en-

On the 9th of August, fire was applied to all the houses. The fragments of broken furniture were heaped up in the centre of the rooms, and fire set to them with torches prepared for that purpose. By a refinement of cruelty, while this unfortunate town Provisions, that are sold in this Market, together with a full was burning, the Russian regimental bands played assortment of Ploughs, Cornshellers and Strawcutters, &c. their national airs. The flames, the savage music, the ferocious yells and laughter, mingled with cries of despair from a wild throng of naked, maltreated, famished, and frantic people, made up a catalogue of horrors that cannot be conceived.

In a few hours the whole town was in flames. Those who attempted to extinguish the conflagration to, at a vain effort, at best-were beaten back by the patrols, who even drove many of the inhabitants into the flames. Towards evening the heat became insupportable, and the wretched survivors were led to cash, at patfalva, where it was told them that they were to be massacred. But this menace produced no effect upon them; they had already suffered too much for that, and so they were permitted to live, as the worst punishment that could be inflicted upon them. But, order to make their work complete, on the next day, while the army was commencing its march, they were assembled, and five francs given to each one, with the following words:-" Strict investigation has been made, and we have discovered that the town was fired, not by Russians, but by guerrillas

disguised as peasants.' After this unblushing and infamous falsehood, the army moved off, and the wretched townspeople returned to gaze upon the smoky ruins of their dwellings, so lately the homes of peace and comfort.

INCENDIARISM .- Two attempts were mad to burn buildings in this town on Monday night last. The first, which was fortunately unsuccessful, was to fire the dwelling of Mr. Murdock McKinnon. This oc-curred at half past 10, P. M. Scarcely had the citi-zens and firemen returned home before a new alarm was given, and a long range of sheds for horses in the wagon yard of John McRae, Esq., was found to be in full flame. The fire had progressed too far to be arrested; but by the prompt efforts of the firemen and citizens it was confined to the building in which

These incidents naturally produced much excitement, as both were evidently cases of incendiarism. A large number of citizens volunteered to patrol the streets during the remainder of the night Inquiries were instituted which led to the arrest of two small negro boys, who confessed that they had fire! Mr. McKinnon's house, having been hired to do so by a free negro blacksmith named Booker. Before 1 o'clock A. M., the two boys were in jail, and the next day, Booker, who had left town, was also arres ted and in jail.

There is no reason to suspect these parties of causing the second fire, as to which there has been no positive discovery, though suspicion has attached to persons who may yet be arrested. No efforts should be spared to ferret out the perpetrators of so lastardly and criminal an offence. - Fay. Obs.

REVIEW OF THE WILMINGTON MARKET.

FOR THE WEEK ENDING MARCH 23, 1854. TURPENTINE-Since our review of Thursday last, the arrivals of turpentine have been very light and the article has ruled steady at our quotations of that day. The market now is rather dull for the hard article and the price has a downward tendency; yellow dip is in fair demand, and sells readily at \$4 30 \$280 lbs. The sales for the week are as follows

Bbls. Yellow dip. Virgin. y a small parcel now offering.

Spirits Turpentine—But little has been doing in Spirits -the sales in the early part of the week were principally of small parcels, as they arrived. The transactions are as follows:

Friday..... 21 bbls, at 62 cents \$\mathbb{B}\$ gallon. Monday.... 65 " 61 " " Tuesday.... 155 " 61 " " Tuesday.... 155 " Wednesday... 597 " 625 " Thursday ..... The market opened firm this morning at 62 cents, at which there are buyers. There is a light stock offering, and sellers generally are firm in helding for 64@65 cents @ gallon—these figures, however, are above the views of buyers.

Rosin—We hear of but few transactions in Rosin since

last review, and the sales are only 2,060 bbls., as follows:—
Thursday, 460 bbls. Common at \$1 10 for large bbls.; Saturday, 1,600 do. at \$1 for small and medium, \$1 05 for large bbls. Common, \$1 25 for No. 2, and \$1 50@\$2 50 \$\mathrew{E}\$ bbls. for ed under the name and style of MURRAY, GRANT & CO.

Corron-But very little has been done in Cotton since our last review. The only sale we hear of was on Saturday last of 21 bales low middling to middling fair at 9 cents # 15.— There appears to be a fair demand for the article, and we market firm at 8@95 cents, as in quality-the lat-

ter price for a prime article.

EMPTY BARKELS—Spirits Turpentine barrels are in light supply, and in fair enquiry. We note sales at \$2 25@\$2 50 each for second hand—generally held at highest figure.

FEATHERS—We reduce our quotations a shade on Feath-FLATHERS—We reduce the quotations a shade on Feathers, and we note small sales from store at 50 cents \$\pi\$ fb.

Sales on Saturday and Monday of 270 bbls, at \$7 25, \$7 374@\$7 50, and on Tuesday of 116 do. at \$7 \$\tilde{v}\$ bbl for superfine. In Northern brands we have no change to note, and the supply in store is fully equal to the demand. See table for rates, as in quantity and quality.

LEWIS JONES, Pink Hill P. O., Lenoir county. The Black Warrior Affair in Congress. On Wednesday, in obedience to a resolution of the House of Representatives, the President transmitted to that body a message, accompanied by all the doc- insurgents, after being once defeated, had been join- agitating the country. We have had the pleasure of uments received at the State Department in regard to ed by the Garrison of Huesca, and had made another reading a letter addressed by him, some time since, to the late seizure of the Steamer Black Worrior, by the stand Spanish authorities. He charges the Cuban authorities with a gross infringement of our rights, for which redress will be demanded from the Court at Madrid. He complains of delay in sending to Spain for an answer, and thinks that the Representatives

What importance attaches to the rumours of satisfaction and indemnity having been offered by Spain, the clang of a ramrod was heard running down the we can hardly tell. Perhaps this may yet be done, whole length of an army in review; and when you but we opine that the reports of it having been already done, are, so far, premature. Let us wait a breath could hold out to make them I tried a hexlittle and see.

Upon the whole, the present has not been a fortunate year for New Orleans. With the slight exceptions of tobacco, flour, sugar and molasses, there have be nearly as follows: been a very marked decrease. It is true that the aggregate amount of cotton received at all the ports in the United States, has exhibited a falling off for the year, but not at all in the same -proportion. The yellow fever has operated disastrously, and the railroads everywhere penetrating the west, and connecting it with the Atlantic Seaboard, has diverted to the eastern cities a vast amount of produce that used to descend the Mississippi to New Orleans. So true it is, that no city, no matter how great its natural advantages may be can depend upon them alone. If "eternal vigilance is the price of liberty" eternal watchfulness and energy are equally that of commercial prosperity. It is a constant race of which an immense scale. the goal is never won, nor the necessity for exertion at

LORD RAGLAN .- It appears that the Lord Raglan, who is to take command of the British troops intended for the East, is the same with Lord Fitzrov Sommerset, son of the fifth Duke of Beaufort. He has been fifty years in military service, having acted as Aid de Camp and Military Secretary to the Duke of Wellington throughout the Peninsular war, and distinguished himself at Fuentes d'Onore, Badajos, Salamanca, Vittoria, and other leading battles. He also served in Flanders, and at Waterloo lost an arm.

The name is familiar to the reader of the history of Wellington's Campaigns or Lever's Novels, but the miserable title, which means nothing, hides the man who had really achieved something of a reputation. No wonder William Pitt disdained to bury his mighty name under a miserable peerage.

Shakspeare had a poet's sympathy with the dazzling concomitants of mortal strife—the neighing steed, the pomp, pride, circumstauce of glorious war. The same wreath is bestowed upon the hero who falls for his native land, and the ruthless warrior who wars for conquest.

Modern warfare has pressed science into its service; it no longer sends men to the field done up in iron jackets, with steel head-pieces, and "barbed steeds," for, thanks to the invention of gun-powder, iron breastplates are no longer proof against the sweep of round shot. Cuirassiers are still kept up in European service, but rather for show; and defensive armor is almost entirely dispensed with. It may ward off a sword-stroke and pistol-shot in a hand-to-hand conflict. Artillery does the business in our day, as the lance and two-handed sword did it in the olden time.
